

TECHNICAL INFORMATION

ORIGEN LHM FLUID Power Steering & Hydraulic Fluid

DESCRIPTION

ORIGEN LHM Fluid is a hydrotreated base fluid designed primarily for Citroen hydraulic systems. This product is also suitable for certain power steering and hydraulic applications. This product contains superior corrosion and oxidation inhibitors providing excellent protection to all metal components that are found within automotive powered hydraulic systems. This product has a very high VI which can cope with variable temperatures.

APPLICATION

ORIGEN LHM Fluid is suitable for use in certain power steering and hydraulic applications. Specifically designed for Citroen hydraulic applications. This product is compatible with other LHM fluids.

BENEFITS

- Excellent lubricity ensures reduced wear.
- Less friction results in longer component life.
- Superior performance in varying temperatures.

TECHNICAL CHARACTERISTICS

Density at 20°C kg.m-3	0.850
Viscosity at 40°C cSt	22
Viscosity at 100°C cSt	5.9
Flash Point	140
Pour Point	-45
