More Advanced Portable Jump Starter

With new invented "The 3rd Generation" battery system, it has much more power to jump start a 24V or 12V Vehicle as well as dead battery of gasoline or diesel engine like a car, motorcycle, boat, jet ski, ATV and lawnmower just in seconds. It can jump start an automobile battery multiple times on a single charge. Especially designed for the latest vehicle with Turbo, Hybrid and Start-Stop System.

USB-C Output with Power Delivery (PD) Fast Charging

Deliver up to 36W of high voltage charging power, which is ideal to charge a wide range of USB-C PD devices at high speed. It intelligently adjusts the power output to deliver fast and efficient charging for each connected device.

You can recharge a USB-C Macbook while on the go or you can fast charge a compatible iPhone from 0-50% in 30 minutes*. (USB-C to Lightning Cable is not included.) USB Type C is termed "universal" as it reversible, so you'll no longer have to flip the connection around for a few times looking for the correct orientation. It will surely be in eliminating the frustration.

USB-A QC 18W Fast Charging

Supports 18W MAX fast charging and offers more convenient and efficient charging experience.

12V DC Output port

With the 12V cigarette lighter adapter provided, you can power any 12V electric device like a Vacuum cleaner, Air compressor, Tyre inflator, Waxer and Polisher etc.

LED Light

Includes 3 types of lighting. Each light features different types of flashing pattern. Work light provides a powerful white floodlight which can broadcast larger areas. It can also switch into amber light for warning and emergency. The LED flashlight can be used to light up longer distances.
