

TECHNICAL INFORMATION

ORIGEN SMART PART Penetrating & De-watering Fluid

DESCRIPTION

ORIGEN SMART PART is a penetrating lubricant designed for use in household, automotive, marine and industrial applications. **ORIGEN SMART PART** is formulated to penetrate deep into metal surfaces, threads and hard to reach places, prevents rust and displaces moisture. **ORIGEN SMART PART** flows smoothly and can act as a protection barrier.

APPLICATION

- Water displacement of electrical systems.
- Water displacement of outboard motors.
- Protects against corrosion of nuts, locks, etc.
- Short term rust preventative.

TECHNICAL CHARACTERISTICS

Density @ 20°C kg.m ⁻³	870 (typical)
