

TECHNICAL INFORMATION

ORIGEN WB GREASE Wheel Bearing Grease

DESCRIPTION

ORIGEN WB GREASE is a premium grade lithium-based wheel bearing grease. This grease is fortified with extreme pressure, oxidation and corrosion inhibitors.

APPLICATION

ORIGEN WB GREASE is designed for use in most automotive bearing applications that are subjected to high load, high speed braking and high temperatures.

BENEFITS

- Long Service Life and excellent thermal and oxidation stability.
- Corrosion protection and Low foam.
- Water resistant.

TECHNICAL CHARACTERISTICS

NLGI	3
Dropping Point	260
Penetration at 25°C	220-250
Colour	Red
