

TECHNICAL INFORMATION

ORIGEN THERM RANGE Quench & Heat Transfer Oil

DESCRIPTION

ORIGEN THERM 22 & 32 is a high-quality quenching and heat transfer oil. These products are fortified with advanced oxidation inhibitors and high quality hydrotreated base oils. These products have good chemical stability with high resistance to thermal degradation at extreme temperatures.

APPLICATION

ORIGEN THERM 22 & 32 is designed for use in quenching applications, heat transfer and exchange systems operating at high temperatures. Heat should be applied gradually to prevent oil cracking and coking of elements.

BENEFITS

- Superior thermal and oxidation stability.
