

TECHNICAL INFORMATION

Origen PROPARG 60 Process Oil

DESCRIPTION

ORIGEN PROPARG 60 is a process oil used in a wide variety of finished products in the chemical and manufacturing industries. The consistency and quality of these products has a major influence on the outcome of manufactured products.

APPLICATION

ORIGEN PROPARG 60 is suitable for use in a variety of different applications such as crop spray, explosives, adhesives, textiles, metal working products, cold low and high speed rolling applications, cable gels and many other industries where process products are required.

BENEFITS

- Neutral Product free of sulphonates.
- Not harmful to stainless steel and copper alloys.
- Ferrous and nonferrous metal friendly.

TECHNICAL CHARACTERISTICS

Density @15 °C	0,847
Viscosity at 40°C cSt	18,9
Viscosity at 100°C cSt	4,1
Pour Point °C	-12
Flash Point °C	217
Viscosity Index	110
Colour ASTM D6045	<0.5
Noack Volatility	22,50
Aromatics wt%	0.5
