

TECHNICAL INFORMATION

ORIGEN OROFORM EP Forming & Drawing Compound

DESCRIPTION

ORIGEN OROFORM EP is a medium viscosity multi-purpose forming oil for mid to heavy duty applications. The product is fortified with chlorinated chemical chains and sulfur for extreme pressure performance. This combination of additives provides excellent anti-wear capability, improved tool life and superior finish of the formed product.

APPLICATION

ORIGEN OROFORM EP was developed as a multi-purpose forming fluid that can be used in a wide range of applications such as stamping, drawing, pressing, and piercing. Suitable for use on stainless steel and medium to low carbon steels.

BENEFITS

- Extreme pressure additives provide excellent protection.
- Superior surface finish.
- Protects against corrosion.
- Enhances the life of the tools.

TECHNICAL CHARACTERISTICS

Density at 20°C kg.m-3	0.860
Viscosity at 40°C cSt	55
Viscosity at 100°C cSt	8.2
Flash Point	210
Pour Point	-15
Appearance	Brown Fluid
