

TECHNICAL INFORMATION

ORIGEN SOLTEC VBP General Purpose Soluble Oil

DESCRIPTION

ORIGEN SOLTEC VBP is a general purpose soluble oil based on refined mineral oils with good emulsifiers and corrosion inhibitors. This product forms a milky white emulsion and contains limited EP capability. **SOLTEC VBP** is recommended for general purpose cutting applications of ferrous and non-ferrous metals where a good quality finish is required.

APPLICATION

ORIGEN SOLTEC VBP has been developed for general purpose cutting, milling, turning, tube rolling and grinding applications.

BENEFITS

- Stable emulsion.
- Low foam.
- Superior corrosion protection.
- Wide range of product applications.

DILUTION RATIO

- Grinding 3-5%
- Machining 8-10%
- General purpose 5%

TECHNICAL CHARACTERISTICS

Density at 20°C kg.m-3	1.20
PH (5%)	8.5-9.0
Appearance	Brown Oily
